REC'D YOUR VERY FINE REPLY TO MY QUERIES.
Could you:
1. Say [redacted] Ray is a "POLITICAL PRISONER"?
2. Amplify (just one paragraph): "On the shot: The unquestioned evidence is that it did not come from the so-called Ray rifle"?

Dear Sir,

I am the author of [illegible] books on the John Kennedy assassination. For some months I have had one completed on the King-Ray case. I am adding an epilogue on the recent developments in Memphis.

It has recently come to my attention that you published a transcript of the false police broadcasts. I would like very much to have a copy of that issue. If possible, I'd like to borrow the complete transcript or obtain a Xeroxed copy of it.

If I may ask you a difficult question: can you isolate issues of your paper in which you printed stories you consider of above-average significance, or stories with new information about the crime and the accused? If so, I'd like to obtain copies of those issues. If you will tell me the cost, I'll send you a check.

In my own investigations I have accumulated a large amount of pertinent data that has not yet come to light. Some of it causes me to have the deepest misgivings about your "mistrial" and the connections of some of the accused's new counsel. If you have printed any stories or can give me any data on the two Tennessee lawyers, it would be helpful.

If you have a reporter assigned to the case, an expert, and he'd like to see some of my material, in confidence, we are but an hour from Washington.

Sincerely,

Harold Weisberg

& 3. Titles &dates on your assassination books?

Thanks, Phil
